## Experience

**Web Development Engineer** @ Topia Technology    **Jun 2019 - Present**

Design user experiences and develop data driven application interfaces.

**Senior Application Developer** @ PATH    **Jan 2017 - Dec 2018**

I created highly trafficked web applications that could range from travel risk management, employee leave, SharePoint customization, and administration of ETL processes. I designed rich, lightweight, responsive, reusable and accessible experiences.

**UI Engineer** @ Motiga    **Aug 2014 - Sep 2016**

Implemented in-game interfaces for PC and Console. Rearchitected the flagship website; optimized for speed, consistency and rich experiences.

**Application Developer Sr** @ Starbucks    **Apr 2012 - Jul 2014**

Drove responsive experiences and development of single page applications like the store locator.

## Education

**Teaching Assistant** @ University of Washington    **Mar 2015 - Jun 2015**

Teaching assistant for the UW Professional & Continuing Education JavaScript Certification Program. Mentored and tutored students and graded work.

**Instructor** @ The School of Visual Concepts    **Nov 2010 - Dec 2010**

Taught designers how to create websites without the help of a professional developer.

**Graphic Design** @ Art Institute of Seattle    **1999 - 2000**

The school was not accredited so I sought on the job experience and volunteered my talents.
